The tickets will contain the names of all the republican candidates for mayor, marshal, treasurer, clerk and city judge and also the names of all candidates for councilman in the respective wards.

The candidates receiving the greatest number of votes for the respective offices shall be declared the nominee of the party and be placed on the Republican ticket to be voted for at the City election, May 3, 1898.

Every candidate at the Primary thereby pledges himself to abide by the result and agrees to give all the nominees his hearty support.

W. H. BUCKLEY, Chairman. C. A. DAY, Secretary.

The democratic slate makers had a little meeting of their own yesterday.

All the democratic candidates are notified of these meetings. In fact they are not all wanted.

It is puzzling the local democratic bosses to know how to get rid of some of the party candidates.

It was not their intention nor plan to have the naming of candidates made subject to a primary.

SEYMOUR never made more substantial progress than under the present republican city administration.

Even the democrats acknowledge that fact, and to themselves, wonder why they have been unable to do so well, for they have been given most excellent opportunities in times past.

SOME of the citizens of Washington and Daviess county seem to be quite sensitive on the matter of their mining troubles down there.

Evidently they can't face criticism. It is the general belief, however, that if they had worked with the same diligence and conservatism as Governor Mount and the labor commissioners all differences would have been settled months ago.

At the democratic primary at Columbus Saturday the candidates were required to pledge support to the successful candidates, which rule the Seymour Democrat would say using its words: "It commits the candidate to action that may be dishonorable in the extreme and no sagacious applicant will subscribe to such a rule."

If it requires that kind of closure to keep a party intact there is something radically wrong somewhere, and the party that enforces it deserves the severest condemnation.

Took a Severe Cold After the Big Fire.

After the big fire in Cripple Creek, I took a very severe cold and tried many remedies without help; the cold only becoming more settled. After using three small bottles of Chamberlain's Cough Remedy, both the cold and cough left me, and in this high altitude it takes a meritorious cough remedy to do any good.—G. B. Henderson, editor Daily Advertiser, Cripple Creek, Colo. Sold by C. W. Milhouse.

HOUSE DEMOLISHED. Explosion of Natural Gas in a Newly Piped Dwelling.

INDIANAPOLIS, Feb. 14.—While Mr. and Mrs. L. G. Hester of West Indianapolis were absent from their home Saturday night the building was totally demolished by an explosion of natural gas. A plumber had been sent to the house on Saturday afternoon to tap the mains of the gas company, but had been unable to finish his work—only connecting the cook stove. It is supposed the pipe leading to the heater had been left uncapped. The first Mr. Hester knew of his loss was when he and his wife got to a streetcar and saw a large crowd standing in front of his gate. No one was hurt.

PRINCETON, Ind., Feb. 14.—One month ago Saturday night Dr. John Hudspeeth, held for criminal assault, and Henry Land, under sentence of three years for larceny, escaped from the Gibson county jail. HER HEAD CRUSHED.

Mrs. Arthur Levy of New York Loses Her Life in an Elevator.

NEW YORK, Feb. 14.—Mrs. Arthur Levy, wife of a member of the clothing firm of Hays, Goldberg & Co., was instantly killed in an elevator at the Holland House in this city.

On entering the elevator Mrs. Levy placed her hand upon her forehead and complained of dizziness to her companions.

Before they could reply the elevator boy had closed the door of the shaft, gripped his lever and the car shot up with a bound. Almost at the same moment Mrs. Levy recoiled and fell with her head out of the door. The elevator was about an inch and a half from the walls of the shaft, and as far as the solid walls would permit her head extended out.

There was a crash, and the boy, with a dexterous move, brought his car to a stop at the first floor.

It was too late. Mrs. Levy lay lifeless on the bottom of the elevator, her head crushed in as if by a heavy bludgeon. It had been struck by the slight projection of the first floor into the elevator shaft.

Once Prosperous Farmer Insane Through Failure to Secure an Office.

LAGANORA, Ky., Feb. 14.—Samuel Button, a once wealthy and prosperous farmer of Oldham county, has been adjudged a lunatic and sent to the Lakeland asylum. Mr. Button has been an ardent Republican all his life, and during the last few years an office seeker. After the election of McKinley his desires for office were greatly increased, and it is believed that his failure to get an appointment helped to bring on his insanity.

FEARS OF LYONING

James Lewis Spirited Away From the Columbus Jail By Sheriff Cox.

Much intense bitterness has developed at Jonesville against James Lewis the murderer of John Williams. The funeral of the murdered man was conducted Sunday afternoon and was largely attended.

Both before and after the funeral small squads of men could be seen at different places in the little village earnestly discussing the situation. There was evidently a decided sentiment against the slayer of Williams. This was reported to the officers at Columbus who feared the gathering of a mob to take Lewis out and lynch him.

The Columbus Times, of this morning says: "Whether Sheriff Cox received any direct notice of danger is not known, but about six o'clock he attempted to reach Jonesville by telegraph, but the office there was closed and the message could not be gotten off.

About 7 o'clock last night Sheriff Cox and deputy, M. V. Larkin took the prisoner in a buggy and left, refusing to tell even Mrs. Cox where they were going. When leaving the jail the prisoner said, "Well, ain't this awful, if it were not for my poor mother, I'd not care if they did hang me." The prisoner was much affected, but maintained his composure quite well under the circumstances.

It is not known yet where the prisoner was taken. One report is to the effect that he was taken to the jail at Franklin and another that he was taken to some secluded locality in Brown county and put under guard.

Much criticism is being directed against John Ford, the owner of the Jonesville saloon, which has been the scene of a number of brawls recently.

Died

Of old age and infirmity, the faithful dog Tod, whose age was about twenty years. He had been the constant companion and faithful servant of Sam Jones since his eyes first saw the light of day. He passed off peacefully Saturday evening, surrounded by his immediate friends. His remains lay in state at L. W. Jones' shop all day yesterday, and was viewed by all the boys in the neighborhood. He was quietly buried to-day in a decent coffin, made by Simmie.

In all his long and useful life Tod never was guilty of but two mean acts. Once when Simmie had him rigged up with ribbons and flags and hitched to a wagon and started in a political parade. As soon as the band began to play Tod thought he had done enough for his country and started for home, and left the ribbons, flags, wagon and Simmie to bring up the rear. At another time, when Mrs. E. had cooked a beef tongue and set it out to cool, Tod came along and appropriated said beef tongue to his own immediate use. But "peace be to his ashes!"

Oh, breathe not his name! Let it sleep in the shade. Where cold and unhonored his relics are laid; sad, silent and dark be the tears that we shed. As the night dew that falls on the grave where'er his head.

The Discovery of the Day.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best I ever had." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it, it never fails and is a sure cure for Consumption, Coughs and Colds. I cannot say enough for its merits." Dr. King's Discovery for consumption coughs and colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at W. F. Peter's Drug Store.

Killed By a Train.

Robert Walters, aged thirty-five years and a tramp hailing from Toronto, Canada, was walking in the track of the B. & O. S. W. near Sparksville Sunday morning, February 13, 1898, when No. 6 struck him killing him instantly. Coroner Green went down and held an inquest.

Judge Hoover was to hear a case at 3 o'clock this afternoon, in which some one is charged with provoking.

GUS REED DEPARTED SUDDENLY

But Returned Just as Suddenly With the Marshal of Mitchell.

Saturday Gus Reed who had been boarding at Eph Burkdoll's for several weeks, left on No. 1 without ceremony, leaving several weeks' board unpaid. It seems probable that Mr. Burkdoll's earnest and persistent requests for the unpaid balance hastened his departure.

No sooner had No. 1 disappeared toward the west than Mr. Burkdoll learned that his delinquent boarder had boarded that train. He telegraphed the marshal at Mitchell instructing him to arrest Reed and bring him back to Seymour. There was no mistake, so when No. 2 came in Gus Reed and the Mitchell marshal were on board. Reed was at once taken before Judge Hoover and on entering a plea of guilt to the charge of attempting to defraud Mr. Burkdoll out of a board bill, he was fined \$5 and costs amounting to \$17.75. This he at first refused to pay, saying he didn't have that amount of money, but after being in the city jail a short time he recounted his money and found he could settle it in full which he did and was granted his liberty.

Robbed the Grave.

A startling incident of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and side, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately advised trying 'Electric Bitters' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at W. F. Peter's Drug Store.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by all druggists 75c. Hall's Family Pills are the best.

SKATING IN OLD DAYS.

How the Sport Became Popular in New York City.

While skating is now one of the most popular sports of the winter season it is only comparatively a few years since it has become so in this city. When the Central park was being constructed in 1860 and the small artificial lake at Fifty-ninth street was nearly completed, the park commissioners announced that it would be thrown open for the use of skaters. A few men took advantage of the invitation, but women could not be induced to go on the ice. The skates then in use were of the most antique pattern, some of the runners extending a long way in front of the foot, ending in a ringlike curl. In a crowd these skates were quite dangerous, and the first year skating was anything except popular.

During the next winter the larger lake at the upper end of the mall was in such condition that it could be used for skating. Here there was more room for the sport, but still the women could not be induced to venture on the ice. A number of gentlemen determined to overcome this prejudice and organized the New York Skating club, having a regulation patterned skate, almost even with the sole of the boot, which was laced up tight to the ankle, while the objectionable strap was done away with, the runner being fixed to the sole while in use by a ball and socket and held firmly with a clamp. These became popular with winter with the men, and a lighter kind was made for women. The prejudice, however, still existed among the latter, until the club invited a lady, who was a fine skater, from Portland, Me., to visit the Central park and skate with the club. This lady wore a pretty and appropriate dress, similar to that worn in winter by women skaters in Europe, and she created such a sensation by her artistic skating as to attract much notice. The result was that before the season ended several young ladies were induced by the club to venture on the ice, and the season of 1862-3 found many, with pretty costumes, enjoying the sport.

A series of carnivals were arranged by the club during the following season, and skating in the evening became one of the fashionable winter amusements.—New York Mail and Express.

Hens and Iron.

A French physician has invented a method by which he says iron can be given in large doses. Hens, he noticed, have powerful internal organs. They can digest considerable quantities of iron and then render it back, through the albumen of their eggs, in a form which is easily digested by the weaker stomach of mankind. So he feeds his hens with what he calls "a very absorbent salt of iron," mingled with grains of wheat, and they lay eggs extremely rich in iron already digested.

A Noble Work.

The Woman's Relief corps, in national convention at Buffalo, has accomplished a noble work. According to the report made by the national president Mrs. Agnes Hitt of Indianapolis, "it has endowed and supports a national relief corps home for the wives and mothers of soldiers and dependent army nurses; it has led in the founding of homes in Michigan, Iowa, Wisconsin, California, Illinois, Indiana and Missouri; it founded and supports the memorial home in Pennsylvania; it secured legislation for the founding of a home in New York; it secured the legislation that provides government aid to the destitute army nurses; it established industrial training for girls at the Ohio orphan's home; it has built memorial halls and monuments, and it secured a united movement for patriotic teaching and a flag on every schoolhouse."

Suspicion.

"Do you remember that girl who came here and said that what she most desired was a good home?" asked the housewife.

"What is the matter now?" responded her husband. "Have you missed something else?"

"Yes. I guess she has a good home pretty nearly paid for by this time,"—Washington Star.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways.

The first way is from improper action of the kidneys. The second way is from careless local treatment of other disease—CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and can be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the Republican and send your address to Dr. Kilmer & Co., Binghamton, N. Y. THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged by the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical encyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

FOOD HABITS OF POOR

Results of an Investigation in New York's Congested Districts.

UNATTRACTIVE HOME TABLES

And Poor Food Accountable in a Measure for the Prevalence of Intemperance—Little Comprehension Shown as to Actual Nutritive Value of the Food Purchased.

WASHINGTON, Feb. 14.—The result of investigations into the food habits of a number of families in the congested districts of New York City in 1895 and 1896 have been made public by the agricultural department in a report entitled "Dietary Studies in New York City." The report was prepared by Professors W. O. Atwater and C. D. Woods, under whose immediate direction the investigations were conducted. The general plan of the inquiry consisted in visiting a number of typical families in the worst congested portions of the city, observing the kinds and amounts of food which they bought and prices which they paid, noting whether they obtained good weight and measure, and subjecting specimens of the food materials to analysis for the purpose of learning their nutritive values.

The people in whose families the studies were made represented a large number of occupations. In some instances they were slovenly and shiftless and took little interest in the appearance of their homes and tables. Other families, though ignorant, were willing and anxious to learn how they might improve their habits of living. In many of the families there was no attempt made to spread an attractive table. One of the most common observations among those who are familiar with the habits of the lower classes of wage-workers, the report continues, is to the effect that a not inconsiderable amount of the prevalence of intemperance can be traced to poor food and unattractive home tables. Throughout all the dietaries there was shown very little comprehension of the actual nutritive value of the food purchased, the selection apparently being made according to some whim or taste, the presence of certain food materials in the market, or because the housekeeper has become accustomed to purchasing certain kinds of food.

The larger number of families spent more than they really could afford for food and yet frequently received insufficient nourishment. The question how these people could have obtained more nutriment for the money expenditure is answered only in the most general terms. It is suggested that one of the best and surest ways to improve the condition of the poor is to give them practical instructions and object lessons in the preparation of attractive yet simple and cheap foods. The subjects upon which the women should be instructed include lessons upon the best and most nutritious food materials and those best adapted in point of cost and ease of preparation to the needs and circumstances of the family, and instruction as to how the housekeeper to prepare simple, wholesome and palatable dishes from such food.

CAR FERRY LOCKED.—MUSKOGEE, Mich., Feb. 14.—The Detroit, Grand Rapids and Western railroad car ferry Shenango is fast in the ice four miles out in Lake Michigan. The Grand Rapids and Indiana company's steamer Oceola attempted to leave for Milwaukee, but could not get beyond the harbor piers.

MILE A MINUTE.—BUFFALO, Feb. 14.—New York to Buffalo, 425 miles, in 425 minutes actual running time, was the record made over the Erie railroad yesterday by a special newspaper train.

Love's young dream is a story of a young man who falls in love with a girl who is a slave. The story is a tragedy, and it is a story of love and sacrifice. The young man is a noble and brave man, and the girl is a beautiful and pure girl. They are both in love with each other, and they are both willing to sacrifice everything for each other. The story is a beautiful and touching story, and it is a story that will stay with you for ever.

WRECKED BY MORPHINE.

Dr. John R. DeVell of Louisville Dead at a Sanatorium.

LOUISVILLE, Feb. 14.—Dr. John R. DeVell, who was found in destitute circumstances with his daughter, Miss Cora DeVell, in a comfortable room on East Main street several weeks ago, died yesterday in a New Albany (Ind.) sanatorium. He was a victim of the morphine and cocaine habits and his body was a mass of sores caused by the use of the hypodermic needle, there being 150 abscesses on him when he died. These abscesses brought on pneumonia, which caused his death.

Miss Cora DeVell, who was taken to the sanatorium with her father, has been steadily improving and her physician feels certain that she will recover her health. Wealthy and influential friends of her father, who reside in this city, have taken her case in hand and there will care for her after her recovery.

Dr. DeVell was for many years a prosperous and highly respected physician until wrecked by his habits.

WOODFORD'S CIPHER

Dispatch Received From the Minister, but Its Import Guarded.

MR. DAY REFUSES TO TALK.

Report That the United States Minister Had Been Censured For Allowing De Lome to Forestate Him Denied. Duke of Arcos May Come as Minister to Washington.

WASHINGTON, Feb. 14.—The 500-word cipher dispatch received from Minister Woodford Saturday night was translated at the state department yesterday, but no intimation of its import could be secured from official sources. Assistant Secretary of State Day, who has been entrusted with the whole correspondence by the president, refused to discuss the message. He said merely that there was no development in the case which properly could be made public at this time. In one instance he supplemented this statement by the remark that the mere fact of information being withheld was not to be taken as a serious indication.

Every effort to supplement Secretary Day's statement with some information from the white house failed. To urgent appeals for something definite, the president replied through Secretary Porter, that the whole matter was in Secretary Day's hands and that the president relied on him to handle the information for the press.

It was stated at the White House, however, that there was no truth in the rumor of a censured upon Minister Woodford for allowing Dupuy de Lome to forestall him in presenting the application for the ministers recall. Minister Woodford's course, it was stated, has been entirely satisfactory and any criticism at this time was unfounded and unfair.

It could not be ascertained positively whether or not an answer to Minister Woodford's last dispatch has been sent. It is also certain, however, that a reply has been drafted and that it was put in cipher at the state department last evening. Sidney T. Smith, chief of the diplomatic bureau, was at the department till after 9 o'clock. Special orders had been issued also to allow no one in the building without a pass.

The Duke of Arcos, mentioned in Madrid dispatches as a possible successor of Dupuy de Lome, has been the guest of Rev. Dr. and Mrs. Mackey-Smith of the city. With him is the Duke's d'Aros, formerly Miss Virginia Lowe, of Washington. The duke was ambassador to Mexico and is stopping in Washington enroute to Spain.

DELOME'S SUCCESSOR.

Duke of Arcos May Come to Washington as Spain's Representative.

MADRID, Feb. 14.—The cabinet today is discussing the choice of a successor to Senor Dupuy de Lome at Washington. The candidacy of Senor Polo-Bernabe appears to be abandoned. Several members of the cabinet favor the nomination of the duke of Arcos, Spanish minister to Mexico, because he could take charge of the Spanish legation at Washington this week.

A Barcelona dispatch says 30,000 people, mostly workmen, and orderly, demonstrated there yesterday against the torture of the anarchists at Mount Jauch fortress.

Resolutions of protest and demand for the punishment of the torturers and revision of the trial were adopted to be forwarded to the government.

How the Junta Got the Letter.

PHILADELPHIA, Feb. 14.—The Press will print today what it asserts to be the true version of the acquisition and publication of the letter from Mr. De Lome to Senor Canclijas. The authority cited for its authenticity is "a Cuban of the highest standing in the councils of his party" who receives his information "from headquarters in New York." The letter was not stolen from the United States mails, but was secured by an agent of the Cuban junta in the post-office at Havana. Don Jose Canclijas, to whom the letter was addressed, never saw the original. He did not know until eight days after the letter reached Havana that such a letter from Spain's representative in Washington had been written him. The first information that such a letter had been written was given to the junta by an employee of the legation, who saw it on Senor De Lome's desk and read it.

OPERAHOUSE BURNED.

Thrilling Escape From Burning to Death at Motion Picture.

MOLINE, Ill., Feb. 14.—The Auditorium operahouse, with contents, was totally destroyed by fire last evening. The total loss is estimated at \$80,000. The building contained the large plant of the Porter Printing company, Electric laundry, Commercial heating plant, Postal Telegraph company, etc. Arnold's Funerals' troupe lost the entire outfit. The loss is covered by insurance.

Half a dozen persons were in the dormitories of the building, and narrowly escaped burning to death, all the stairways having been burned. Two men slid down a rope from the third floor and two women and two men were rescued by means of ladders. The building was a 3-story brick and is a total loss.

LOTTERY SCHEME.

Alderman's Idea of Refunding the City's Debt.

MONTREAL, Feb. 14.—Alderman Rainville, chairman of the city's finance committee, will introduce a scheme for the funding of the city's debt, which proposes to issue bonds on the French lottery plan. Certain numbers will draw prizes. All the bonds will bear 3 per cent interest. In the alderman's own words the citizens will get an opportunity of securing a safe investment bearing 3 per cent interest and at the same time run the chance of obtaining a fortune, while the city will gain the advantage of having its civic debt in the hands of its own citizens and effect an annual saving of \$800,000. The plan is bound to create antagonism among certain sections of the population who have for many years waged an uncompromising warfare on many lotteries now running in Montreal.

Vistor, dry goods merchants; W. R. Stuart, banker; James P. Britton, broker, and John W. Ancin-clos, a former trustee. The seventh member has not been selected.

The men, about 70 in number, walked through the streets of Tampa and boarded a special train which quickly bore them to a point near where they were to embark and there they remained in hiding until a tug took them out to the steamer which bore them away to Cuba, Colonel Emilio Nunez being in charge of the steamer. It is said General Sanguilly is the real commander.

Jarrett was given a preliminary hearing yesterday on the charge of being implicated in the murder of Mrs. Stoltz, an aged woman who was found bound, gagged and dead in her home. Robbery is supposed to have been the motive. At the examination Head's story was not substantiated.

RELIGIOUS FRENZY

Butler Citizens Almost Fight to Hear Mrs. Woodworth.

TOUGH SHOT BY A POSTMASTER

House Demolished by an Explosion of Natural Gas—Madison Red Men—Was Caught in a Bank—Want the Old Fellows' Home—Capture of Escaped Jail Prisoners.

BUTLER, Ind., Feb. 14.—This section of the state is passing through a religious revival that is seldom witnessed for excitement. A Mrs. Woodworth, who has trances and cures the sick by faith, is the revivalist.

One woman drove a long distance through roads almost impassable with mud to have a cancer cured and she claims that she went home healed. Another woman was cured of lung trouble and an old man of rheumatism. She claims that she will cure a dumb boy who has not uttered a word for 10 years. The church is crowded with people who come for miles to hear her preach and many are unable to gain admission. She has trances and while they last her assistant, a Miss Esenberg, conducts the singing in a startling manner. Old, hardened sinners arise in the crowd and shout that they are freed from their sins, and people who never attended church almost fight for admission.

SHOT BY A POSTMASTER.

Result of Fued Existing For the Past Three Years.

CLINTON, Ind., Feb. 14.—Henry Gilroy, the new postmaster at Lyford, the mining camp just across the river, shot and perhaps fatally wounded Joseph Hoffman, one of the toughs of the town, Saturday night. The shooting is a climax of an old feud existing between the two men for the past three years. Gilroy claimed to have shot in self-defense, being no match for Hoffman. Hoffman, crazed with drink, was on his way home, when he saw Gilroy in front of his place of business. Hoffman renewed the quarrel and proposed to settle by whipping Gilroy. He gave no attention to the postmaster's warning to stand back, but advanced until Gilroy fired three shots. Hoffman is believed to be fatally wounded. It is the second man Gilroy has shot in the past three years, and it is the second time Hoffman has been shot while on a spree.

Pemberton and Franklin started out after Smith and found him at the bank. When the latter found he was detected he made a desperate fight, but was landed in jail.

RUSHVILLE, Ind., Feb. 14.—An energetic effort is being made by the Odd Fellows in Rush county to locate the proposed Odd Fellows' home in this city. The eight lodges in the county will lay the matter before the Commercial club tonight. The railroad facilities, agricultural resources and the strength of the order in this vicinity are being urged as to why the home should be located here.

FEARS OF LYNCHING

James Lewis Spirited Away From the Columbus Jail By Sheriff Cox.

Much intense bitterness has developed at Jonesville against James Lewis the murderer of John Williams. The funeral of the murdered man was conducted Sunday afternoon and was largely attended.

Both before and after the funeral small squads of "men could" be seen at different places in the little village earnestly discussing the situation. There was evidently a decided sentiment against the slayer of Williams. This was reported to the officers at Columbus who feared the gathering of a mob to take Lewis out and lynch him.

The Columbus Times, of this morning says: "Whether Sheriff Cox received any direct notice of danger is not known, but about six o'clock he attempted to reach Jonesville by telegraph, but the office there was closed and the message could not be gotten off.

About 7 o'clock last night Sheriff Cox and deputy, M. V. Larkin took the prisoner in a buggy and left, refusing to tell even Mrs. Cox where they were going. When leaving the jail the prisoner said, "Well, ain't this awful, if it were not for my poor mother, I'd not care if they did hang me." The prisoner was much affected, but maintained his composure quite well under the circumstances.

It is not known yet where the prisoner was taken. One report is to the effect that he was taken to the jail at Franklin and another that he was taken to some secluded locality in Brown county and put under guard.

Much criticism is being directed against John Ford, the owner of the Jonesville saloon, which has been the scene of a number of brawls recently.

Died

Of old age and infirmity, the faithful dog Tod, whose age was about twenty years. He had been the constant companion and faithful servant of Sam Jones since his eyes first saw the light of day. He passed off peacefully Saturday evening, surrounded by his immediate friends. His remains lay in state at L. W. Jones' shop all day yesterday, and was viewed by all the boys in the neighborhood. He was quietly buried to-day in a decent coffin, made by Simmie.

In all his long and useful life Tod never was guilty of but two mean acts. Once when Simmie had him rigged up with ribbons and flags and hitched to a wagon and started in a political parade. As soon as the band began to play Tod thought he had done enough for his country and started for home, and left the ribbons, flags, wagon and Simmie to bring up the rear. At another time, when Mrs. E. had cooked a beef tongue and set it out to cool, Tod came along and appropriated said beef tongue to his own immediate use. But "peace be to his ashes!"

Oh, breathe not his name! Let it sleep in the shade. Where cold and unhonored his relics are laid: Sad, silent and dark be the tears that we shed As the night dew that falls on the grave o'er his head.

The Discovery of the Day.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it, it never fails and is a sure cure for Consumption, Coughs and Colds. I cannot say enough for its merits." Dr. King's Discovery for consumption coughs and colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at W. F. Peter's Drug Store.

Killed By a Train.

Robert Walters, aged thirty-five years and a tramp hailing from Toronto Canada, was walking in the track of the B. & O. S. W. near Sparksville Sunday morning, February 13, 1898, when No. 6 struck him killing him instantly. Coroner Green went down and held an inquest.

Judge Hoover was to hear a case at 3 o'clock this afternoon, in which some one is charged with provocation.

GUS REED DEPARTED SUDDENLY

But Returned Just as Suddenly With the Marshal of Mitchell.

Saturday Gus Reed who had been boarding at Eph Burkdoll's for several weeks, left on No. 1 without ceremony, leaving several weeks' board unpaid. It seems probable that Mr. Burkdoll's earnest and persistent requests for the unpaid balance hastened his departure.

No sooner had No. 1 disappeared toward the west than Mr. Burkdoll learned that his delinquent boarder had boarded that train. He telegraphed the marshal at Mitchell instructing him to arrest Reed and bring him back to Seymour. There was no mistake, so when No. 2 came in Gus Reed and the Mitchell marshal were on board. Reed was at once taken before Judge Hoover and on entering a plea of guilt to the charge of attempting to defraud Mr. Burkdoll out of a board bill, he was fined \$5 and costs amounting to \$17.75. This he at first refused to pay, saying he didn't have that amount of money, but after being in the city jail a short time he recanted his money and found he could settle it in full which he did and was granted his liberty.

Robbed the Grave.

A startling incident of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately I was advised to try 'Electric Bitters' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at W. F. Peter's Drug Store.

Deafness Cannot be Cured By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Food, undigested, is poison. Digested, it is life and strength. Millions of us suffer from indigestion, but we often don't know it. We think it is something else. Even doctors often mistake the symptoms.

Pale, thin people, who are overworked who need strength, who seem in want of proper food, should take Shaker Digestive Cordial. It is astonishing what food will do, when properly digested.

It will make you strong, revive you, refresh you, sustain you, make you fat, restore your color, make muscle, brain, courage, endurance, energy, increase your power to throw off disease and keep you healthy and happy.

Indigestion does just the opposite, but indigestion can be cured and prevented with Shaker Digestive Cordial.

How the Sport Became Popular in New York City.

While skating is now one of the most popular sports of the winter season it is only comparatively a few years since it has become so in this city. When the Central park was being constructed in 1860 and the small artificial lake at Fifty-ninth street was nearly completed, the park commissioners announced that it would be thrown open for the use of skaters. A few men took advantage of the invitation, but women could not be induced to go on the ice. The skates then in use were of the most antique pattern, some of the runners extending a long way in front of the foot, ending in a ringlike curl. In a crowd these skates were quite dangerous, and the first year skating was anything except popular.

During the next winter the larger lake at the upper end of the mall was in such condition that it could be used for skating. Here there was more room for the sport, but still the women could not be induced to venture on the ice. A number of gentlemen determined to overcome this prejudice and organized the New York Skating club, having a regulation patterned skate, almost even with the sole of the boot, which was laced up tight to the ankle, while the objectionable strap was done away with, the runner being fixed to the sole while in use by a ball and socket and held firmly by a clamp. These became popular that winter with the men, and a lighter kind was made for women. The prejudice, however, still existed among the latter, until the club invited a lady, who was a fine skater, from Portland, Me., to visit the Central park and skate with the club. This lady wore a pretty and appropriate dress, similar to that worn in winter by women skaters in Europe, and she created such a sensation by her artistic skating as to attract much notice. The result was that before the season ended several young ladies were induced by the club to venture on the ice, and the season of 1862-3 found many, with pretty costumes, enjoying the sport.

A series of carnivals were arranged by the club during the following season, and skating in the evening became one of the fashionable winter amusements.—New York Mail and Express.

Hens and Iron.

A French physician has invented a method by which he says iron can be given in large doses. Hens, he noticed, have powerful internal organs. They can digest considerable quantities of iron and then render it back, through the albumen of their eggs, in a form which is easily digested by the weaker stomach of mankind. So he feeds his hens with what he calls "a very absorbent salt of iron," mingled with grains of wheat, and they lay eggs extremely rich in iron already digested.

A Noble Work.

The Woman's Relief corps, in a national convention at Buffalo, has accomplished a noble work. According to the report made by the national president, Mrs. Agnes Hitt of Indianapolis, "it has endeavored and supports a national relief corps home for the wives and mothers of soldiers and dependent army nurses; it has led in the founding of homes in Michigan, Iowa, Wisconsin, California, Illinois, Indiana and Missouri; it founded and supports the memorial home in Pennsylvania; it secured legislation for the founding of a home in New York; it secured the legislation that provides government aid to the destitute army nurses; it established industrial training for girls at the Ohio orphan's home; it has built memorial halls and monuments, and it secured a united movement for patriotic teaching and a flag on every schoolhouse."

"Do you remember that girl who came here and said that what she most desired was a good home?" asked the housewife.

"What is the matter now?" responded her husband. "Have you missed something else?"

"Yes. I guess she has a good home pretty nearly paid for by this time."—Washington Star.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from impure action of the kidneys. The second way is from careless local treatment of other disease.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctoring too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, let your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the Republican and send your address to Dr. Kilmer & Co., Binghamton, N. Y. THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the men of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged by the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

FEARS OF LYONING

James Lewis Spirited Away From the Columbus Jail By Sheriff Cox.

Much intense bitterness has developed at Jonesville against James Lewis the murderer of John Williams. The funeral of the murdered man was conducted Sunday afternoon and was largely attended.

Both before and after the funeral small squads of men could be seen at different places in the little village earnestly discussing the situation. There was evidently a decided sentiment against the slayer of Williams. This was reported to the officers at Columbus who feared the gathering of a mob to take Lewis out and lynch him.

The Columbus Times, of this morning says: "Whether Sheriff Cox received any direct notice of danger is not known, but about six o'clock he attempted to reach Jonesville by telegraph, but the office there was closed and the message could not be gotten off.

About 7 o'clock last night Sheriff Cox and deputy, M. V. Larkin took the prisoner in a buggy and left, refusing to tell even Mrs. Cox where they were going. When leaving the jail the prisoner said, "Well, ain't this awful, if it were not for my poor mother, I'd not care if they did hang me." The prisoner was much affected, but maintained his composure quite well under the circumstances.

It is not known yet where the prisoner was taken. One report is to the effect that he was taken to the jail at Franklin and another that he was taken to some secluded locality in Brown county and put under guard.

Much criticism is being directed against John Ford, the owner of the Jonesville saloon, which has been the scene of a number of brawls recently.

Died

Of old age and infirmity, the faithful dog Tod, whose age was about twenty years. He had been the constant companion and faithful servant of Sam Jones since his eyes first saw the light of day. He passed off peacefully Saturday evening, surrounded by his immediate friends. His remains lay in state at L. W. Jones' shop all day yesterday, and was viewed by all the boys in the neighborhood. He was quietly buried today in a decent coffin, made by Simmie.

In all his long and useful life Tod never was guilty of but two mean acts. Once when Simmie had him rigged up with ribbons and flags and hitched to a wagon and started in a political parade. As soon as the band began to play Tod thought he had done enough for his country and started for home, and left the ribbons, flags, wagon and Simmie to bring up the rear. At another time, when Mrs. E. had cooked a beef tongue and let it out to cool, Tod came along and appropriated said beef tongue to his own immediate use. But "peace be to his ashes!"

Oh, breathe not his name! Let it sleep in the shade Where cold and unheeded his relics are laid: Red, silent and dark be the tears that we shed As the night dew that falls on the grave where he lies.

The Discovery of the Day.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best I ever have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails and is a sure cure for Consumption, Coughs and Colds. I cannot say enough for its merits." Dr. King's Discovery for consumption coughs and colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at W. F. Peter's Drug Store.

Killed By a Train.

Robert Walters, aged thirty-five years and a tramp hailing from Toronto, Canada, was walking in the track of the B. & O. S. W. near Sparksville Sunday morning, February 13, 1898, when No. 6 struck him killing him instantly. Coroner Green went down and held an inquest.

Judge Hoover was to hear a case at 3 o'clock this afternoon, in which some one is charged with provocation.

GUS REED DEPARTED SUDDENLY

But Returned Just as Suddenly With the Marshal of Mitchell.

Saturday Gus Reed who had been boarding at Eph Burkdoll's for several weeks, left on No. 1 without ceremony, leaving several weeks' board unpaid. It seems probable that Mr. Burkdoll's earnest and persistent requests for the unpaid balance hastened his departure.

No sooner had No. 1 disappeared toward the west than Mr. Burkdoll learned that his delinquent boarder had boarded that train. He telegraphed the marshal at Mitchell instructing him to arrest Reed and bring him back to Seymour. There was no mistake, so when No. 2 came in Gus Reed and the Mitchell marshal were on board. Reed was at once taken before Judge Hoover and on entering a plea of guilt to the charge of attempting to defraud Mr. Burkdoll out of a board bill, he was fined \$5 and costs amounting to \$17.75. This he at first refused to pay, saying he didn't have that amount of money, but after being in the city jail a short time he recounted his money and found he could settle it in full which he did and was granted his liberty.

Robbed the Grave.

A startling incident of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and side, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately advised trying 'Electric Bitters' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at W. F. Peter's Drug Store.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

In a recent letter from Washington, D. C., to an old friend, Major G. A. Stader, for twenty years United States Consul at Singapore, says: "While at Des Moines I became acquainted with a liniment known as Chamberlain's Pain Balm, which I found excellent against rheumatism as well as against soreness of the throat and chest (giving me much easier breathing). I had a touch of pneumonia early this week, and two applications freely applied to the throat and chest relieved me of it at once. I would not be without it for anything."

Food, undigested, is poison. Digested, it is life and strength. Millions of us suffer from indigestion, but we often don't know it. We think it is something else. Even doctors often mistake the symptoms.

Pale, thin people, who are overworked who need strength, who seem in want of proper food, should take Shaker Digestive Cordial. It is astonishing what food will do, when properly digested.

It will make you strong, revive you, refresh you, sustain you, make you fat, restore your color, make muscle, brain fibre, courage, endurance, energy increase your power to throw off disease and keep you healthy and happy.

Indigestion does just the opposite, but indigestion can be cured and prevented with Shaker Digestive Cordial.

SKATING IN OLD DAYS.

How the Sport Became Popular in New York City.

While skating is now one of the most popular sports of the winter season it is only comparatively a few years since it has become so in this city. When the Central park was being constructed in 1860 and the small artificial lake at Fifty-ninth street was nearly completed, the park commissioners announced that it would be thrown open for the use of skaters. A few men took advantage of the invitation, but women could not be induced to go on the ice. The skates then in use were of the most antique pattern, some of the runners extending a long way in front of the foot, ending in a ringlike curl. In a crowd these skates were quite dangerous, and the first year skating was anything except popular.

During the next winter the larger lake at the upper end of the mall was in such condition that it could be used for skating. Here there was more room for the sport, but still the women could not be induced to venture on the ice. A number of gentlemen determined to overcome this prejudice and organized the New York Skating Club, having a regulation patterned skate, almost even with the sole of the boot, which was laced up tight to the ankle, while the objectionable strap was done away with, the runner being fixed to the sole while in use by a ball and socket and held firmly with a clamp. These became popular that winter with the men, and a lighter kind was made for women. The prejudice, however, still existed among the latter, until the club invited a lady, who was a fine skater, from Portland, Me., to visit the Central park and skate with the club. This lady wore a pretty and appropriate dress, similar to that worn in winter by women skaters in Europe, and she created such a sensation by her artistic skating as to attract much notice. The result was that before the season ended several young ladies were induced by the club to venture on the ice, and the season of 1862-3 found many, with pretty costumes, enjoying the sport.

A series of carnivals were arranged by the club during the following season, and skating in the evening became one of the fashionable winter amusements.—New York Mail and Express.

Hens and Iron.

A French physician has invented a method by which he says iron can be given in large doses. Hens, he noticed, have powerful internal organs. They can digest considerable quantities of iron and then render it back, through the albumen of their eggs, in a form which is easily digested by the weaker stomach of mankind. So he feeds his hens with what he calls "a very absorbent salt of iron," mingled with grains of wheat, and they lay eggs extremely rich in iron already digested.

A Noble Work.

The Woman's Relief corps, in national convention at Buffalo, has accomplished a noble work. According to the report made by the national president, Mrs. Agnes Hiatt of Indianapolis, "it has endeavored and supports a national relief corps home for the wives and mothers of soldiers and dependent army nurses; it has led in the founding of homes in Michigan, Iowa, Wisconsin, California, Illinois, Indiana and Missouri; it founded and supports the memorial home in Pennsylvania; it secured legislation for the founding of a home in New York; it secured the legislation that provides government aid to the destitute army nurses; it established industrial training for girls at the Ohio orphan's home; it has built memorial halls and monuments, and it secured a united movement for patriotic teaching and a flag on every schoolhouse."

Suspicious.

"Do you remember that girl who came here and said that what she most desired was a good home?" asked the housewife.

"What is the matter now?" responded her husband. "Have you missed something else?"

"Yes. I guess she has a good home pretty nearly paid for by this time."—Washington Star.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from improper action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and it not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the Register and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its ninepence of this offer.
